## Professional Summary

I am FrontEnd Developer, focused on UI & Interaction Design, with 4+ years in Web Design, Web Development and entrepreneurial projects.

I consider myself a creative, enthusiast and entrepreneurial person. I love creating and designing products to solve people real problems. I'm interested in Web Applications Design, FrontEnd Development and User Experience focused to responsive and mobile-first patterns and performance. I have been involved in different projects with people around the world.

I am constantly learning something new everyday, I love self-learning about technologies, language programming and design patterns through MOOC's (Massive Open Online Courses).
